## .com Premium red 2022

Even though everyone says it is not easy to combine high quality with moderate prices this continues to be our guiding philosophy, while rooting our identity which, above all, favours good value for money. We don't even know how to work in different way! With .com we seek to assert a youthful, irreverent view of the Alentejo, showing fruitness and joviality, divided between the structure of Alicante Bouschet grape, the ripe fruit of Aragonez, slightly spicy touch of trincadeira and the floral elegance of Touriga Nacional. And this year, we are proud to present a .com full of character.

## Tasting Notes

An intense ruby red colour. Fruity and expressive, with strong hints of plum and black pepper, it is structured and dense, profoundly balanced and reinvigorating, with smooth tannins, while ending up tense and brisk thanks to a reinvigorating freshness.

## Winemaking

Thanks to our immense diversity of grape varieties, we were able to gather grapes in a perfect state of maturation, with a balanced and discretion which surprise us even today with a good evolution and liveliness. Then, besides the good fruit that we pick from our vines, we also benefit from the many investments and good decisions that we've been making, from proximity of vineyards to the wine cellar, to patient, gentle pressings, from low fermentation temperatures to low capacity vats, always with constant attention to details.

## Technical Information

**Wine** . .com Premium red

**Producer** . Tiago Cabaço

**Region** . Alentejo – Estremoz

**Year** . 2022

**Oenologist** . Tiago Cabaço and Susana Esteban
